2A. Project Detail

1. **CoC Number and Name:** IN-503 - Indianapolis CoC
2. **Collaborative Applicant Name:** City of Indianapolis

3. **Project Name:** 2022 Indy CoC Planning Grant

4. **Component Type:** CoC Planning Project Application

2B. Project Description

1. Provide a description that addresses the entire scope of the proposed project and how the Collaborative Applicant will use grant funds to comply with 24 CFR 578.7:

Grant funds will support system planning, development, and refinement of the Indianapolis Community Plan to End Homelessness using a collective impact model. The grant supports CoC coordination, shared accountability, and system performance ensuring a reduction in the length of time people experience homelessness and racial disparities and an increase in housing choices and housing stability. Planning strategies are grounded in Housing First, advancing racial equity, continuous quality improvement, cross-sector engagement and integration, data-driven decision making, and transparent and open communication. Planning will continue to improve a systemic response to homelessness through greater funding alignment, cross agency and sector coordination, a shared vision, performance and data driven practice, and dedicated backbone support. An integrated project management team will manage the strategies from the Community Plan prioritized by the CoC Governing Board and in alignment with HUD CoC Interim Rule (24 CFR 578.39). Lead Agency staff will cultivate a culture of transformative learning, evaluation and adaptive programming. Project managers will continue facilitating a change process supported by a balanced governance and implementation infrastructure and utilizing work plans to develop and track progress. Actionable strategies in the work plans will include ongoing refinement of system components to enhance the alignment of activities and improve performance across the system and within projects. The Lead Agency is committed to supporting coordinated investment planning to target and leverage new resources, strengthening the CoC Governing Body to drive strategy and codify policy, and enhancing open and transparent communication through a variety of methods (i.e. social media, website, weekly convening, quarterly progress reports, etc.) Developing and maintaining a system of shared measurement and data analytics using HMIS and CES data will support a more data literate CoC that uses data to plan, evaluate practices, improve performance, equity, and impact. Planning, coordinating, and executing an annual PIT Count will serve as another data source used to measure trends and year over year progress. The CoC Governing Board and workgroups will be supported to incorporate data dashboards through community training sessions and capacity building. The project management team will oversee project monitoring using data to improve data quality, programmatic performance, and outcomes. Planning efforts will further support system alignment by working with funders, key system stakeholders, and community leaders to reinforce the commitment to the values, vision, and goals around permanent housing and high-quality services across the continuum. Developing an onboarding and training curriculum using a learning management system to support alignment with values and best practices will be a significant focus in 2022.

2. Describe the estimated schedule for the proposed activities, the management plan, and the method for assuring effective and timely completion of all work.

Support coordinated community homelessness system response efforts to the ongoing COVID-19 pandemic, coordinating ongoing investment strategies with the CoC governing board to leverage resources, including housing choice vouchers, to address needs and focus on rehousing. Weekly

3. How will the requested funds improve or maintain the CoC's ability to evaluate the outcome of CoC and ESG projects?

The community uses a System Performance Dashboard, updated monthly, with six key metrics to understand community performance and provide project outcomes. This includes measuring data completeness, homeless entries, bed utilization, returns to homelessness, average length of stay, and exits to permanent housing. We will use data visualization methods to drive accountability and inform ongoing strategies for improving community and project performance.

To drive accountability, we will collaborate with the Collaborative Applicant to utilize the HMIS Data Quality Plan, program compliance requirements, and CoC Written Standards to implement a comprehensive evaluation of project performance. The comprehensive effort will include monitoring, site visits, and quarterly meetings. Project level outcome measures are reported to projects monthly through the System Performance Dashboard, and community performance criteria for CoC funding are overseen by the non-conflicted work group and approved by the Blueprint Council. FTEs funded through this grant collaborate with this work group to review and update policies annually, assess outcomes measures and update them as needed, create data dashboards for data visualization, and work in coordination with the HMIS team and their work plan to ensure data quality and opportunities to improve outcomes are pursued. They will also work with the CES team to implement the Coordinated Entry Refinement Plan, which includes quantitative and qualitative performance measures.
